

AN EFFICIENT SYSTEM TO OPTIMIZE PRODUCTIVITY AND SALES.

CLEAR SOLUTIONS FOR COST-EFFECTIVE DISPLAYS.

The simple answer to multiple retail challenges –

Improve presentation and boost profits with SpaceGrid® II pusher systems from Retail Space Solutions.

Ensure attractive, organized and front-faced displays and a new-store appearance all day long. The clear lens keeps products visible which leads to quicker buying decisions. The design of the pusher provides just the right tension to hold products securely in place, plus pullout trays on SpaceGrid II speed up restocking to improve labor efficiency.

SpaceGrid II pusher systems:

- Keep products front-faced and organized from store open to close
- Drive quick buying decisions
- Stock effortlessly with easy-to-use pull out tray
- Requires minimal conditioning

Boost the bottom line with **increased labor efficiency and faster buying decisions.**

Why install Retail Space Solutions SpaceGrid II pusher systems?

IMPROVED
product presentation

INCREASED
facings

EFFICIENT
conditioning &
restocking

REDUCED
shrink

Maximizing both space and return on investment

Front-faced products create new store feel every day

Pusher brings product to the front to create the feel of a new store opening every day, making purchasing decisions easier for shoppers.

Grid mounting system increases product facings

SpaceGrid® helps to add facings by more efficiently utilizing space vertically.

Pull-out trays for easy restocking

Reduce restocking time by simply pushing the button under the tray, pulling it forward and quickly restocking.

Unique tray design maintains proper airflow

Baffle directs cold air to flow through product, ensuring proper temperature distribution.

Adjustable trays fit various product widths

Wings adjust quickly and easily to fit product widths from 5" to 10.9".

5" - 10.9"
