

DESIGN CUSTOMIZED, EYE-CATCHING DISPLAYS THAT LIFT SALES.

EASY WAY TO INTEGRATE SHELVES INTO A SPACEGRID® SYSTEM.

 **SPACEGRID® Shelf**

Make room for a better store experience and bigger sales –

Create the ultimate displays with SpaceGrid® Shelf from Retail Space Solutions.

The versatile SpaceGrid Shelf helps create complementary product displays to maximize visual impact and drive sales. Attaching quickly to the same grid mounting system used for SpaceGrid pusher systems, SpaceGrid Shelf units provide displays of practical product combinations, such as bagged salads paired with dressings. SpaceGrid Shelf is a versatile solution that generates positive ROI.

SpaceGrid Shelf system:

- Allows flexible installation
- Fosters cross-selling of complementary products
- Offers reversible design options
- Complements SpaceGrid system

SpaceGrid Shelf provides merchandising flexibility and efficient setup of displays, **creating an intuitive sales process and shopping experience.**

Customizable shelving solution for attention-grabbing displays

Flexible installation for either short or long displays

SpaceGrid® Shelf units can be placed side-by-side to create longer shelves and can function independently as a 12" shelf unit.

Reversible wings provide optimal protection and visibility

Shelf bracket allows for either upward-facing or downward-facing wings, which provides flexibility in merchandising and heights within the set.

Compatible with SpaceGrid pusher systems

Shelf units are designed to work effectively within a SpaceGrid pusher system environment, creating creative and effective displays.

14", 16" & 18"

Multiple depths available for customized shelving

SpaceGrid Shelf systems are available in depths of 14", 16" and 18" to conveniently and comfortably merchandise products of varying sizes. All shelf units are 12" wide.

Built for long-term performance

Rugged metal construction securely supports products whose shape or size may be better fitting for a shelf.
